1. MIFIDPRU 8 DISCLOSURE

The Firm is authorised and regulated by the Financial Conduct Authority (the “FCA”). The Firm acts as an investment adviser and makes investment recommendations to an investment manager with respect to pooled investment vehicles.

The Firm is categorised as a “SNI MIFIDPRU investment firm” by the FCA for capital purposes. The Firm reports on a solo basis. The Firm’s MIFIDPRU 8 disclosure fulfils the Firm’s obligation to disclose to market participants’ key information on a firm’s remuneration policies and practices

In making the qualitative elements of this disclosure, the Firm is required to provide a level of detail that is appropriate to the Firm’s size and internal organisation, and to the nature, scope and complexity of its activities.

This disclosure is made annually on the date the Firm publishes its annual financial statements. As appropriate, this disclosure is made more frequently, for example if there is a major change to the Firm’s business model.

2. REMUNERATION POLICIES AND PRACTICES

The Firm is subject to the Remuneration Code (the “Code”) for MIFIDPRU Firms as codified in Section 19G of the SYSC sourcebook of the Financial Conduct Authority handbook.

This disclosure sets out qualitative and quantitative information on the Firm’s remuneration processes and practices.

A. Qualitative Information

The Firm must establish, implement and maintain remuneration policies, procedures and practices that are consistent with and promote effective risk management and do not encourage excessive risk taking.

The Firm ensures that the remuneration policy and its practical application are consistent with the Firm’s business strategy, objectives and long-term interests.

Given the nature and small size of our business, remuneration for all employees is set by the Firm’s management body.

Staff receive a salary which reflects their market value, responsibilities and experience.

Staff may also receive variable remuneration, such as an annual bonus, where they operate within the risk appetite of the Firm and have demonstrated appropriate behaviour.

Variable remuneration is intended to reflect contribution to the Firm’s overall success and may take the form of bonuses or performance fees (in the form of carried interest).

Bonuses - staff are assessed throughout the year and rated based on their performance and that of the Firm. The performance assessment may consider both qualitative and financial measures.

Performance fees - Otherwise known as carried interest, performance fees are typically subject to performance hurdles being met and payment over a period of time, and act as a long-term incentive to ensure aligned interests on investment performance and the retention (via “vesting” and “leaver” provisions) of key staff.

The Firm’s linkage between variable remuneration and performance is based upon the following tenets:

- Ensuring there is an appropriate allocation of financial results between staff and Members
- Attraction and retention of staff members
- Aligning the interest of senior staff members via long-term incentive plans
- Linking a proportion of a staff member’s total compensation to the Firm’s performance
- Discouraging excessive risk-taking and ensuring client interests are not negatively impacted

B. Quantitative Information
